

ASSEMBLY BILL

No. 1366

Introduced by Assembly Member Portantino

February 23, 2007

An act relating to housing.

LEGISLATIVE COUNSEL'S DIGEST

AB 1366, as introduced, Portantino. Local government: housing needs.

Existing law requires local governments to adopt a comprehensive general plan that addresses a number of elements, including the housing element. The housing element must address, among other things, the local government's housing needs for various income levels.

This bill would express the intent of the Legislature to enact legislation that would address the inability or failure of local governments to meet their housing needs, and how that inability or failure affects the ability of other surrounding jurisdictions to fulfill their own housing needs.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. It is the intent of the Legislature to enact
- 2 legislation that would address the inability or failure of local
- 3 governments to meet their housing needs and how that inability
- 4 or failure effects the ability of other surrounding jurisdictions to
- 5 fulfill their own housing needs.
